EDUCATION

Bachelor of Science in Computer Science

University of Minnesota Duluth – Duluth, MN

Graduated: Summer 2025

Coursework: Advanced Security, Software Analysis and Design, and Parallel Programming.

Honors: Dean's List 5x

TECHNICAL SKILLS AND PROJECTS

- Languages:
 - Strong background in **C++, C, CUDA**,
 - Familiar with Java, Dart, Python.
- Tools and Frameworks:
 - Extensive experience in **Git, IntelliJ, CLion**
 - Basic understanding of .NET, Jupyter, Flutter
- Other:
 - Comfortable with **SQL, XML, Firebase**
 - Working knowledge of MongoDB, Cloudflare
- Projects
 - Lake Superior Streams and Lakes (**C++**): Built a C++ application in a team setting that analyzes and visualizes statistical insights of Lake Superior's watershed.
 - Graph App (**Java**): Developed an app on IntelliJ that would visualize depth first traversal, breadth first traversal, and Dijkstra's Algorithm graph patterns.
 - Journal App (**Dart, Flutter**): Developed a cross-platform journaling app using Dart and Flutter with Firebase backend integration for data storage. Used **Agile Scrum** development practice.

EXPERIENCE

ByteSpeed LLC, Computer Assembler

Summer 2023

- Gained hands-on experience in computer hardware by assembling over 100 custom personal computers, gaming systems, and servers per day, significantly improving time management and workflow efficiency.
- Managed inventory and itemized component quantities for upcoming builds, ensuring seamless production flow.
- Collaborated with a team of engineers to troubleshoot hardware issues, enhancing communication and team problem-solving skills.
